PROFESSIONAL EXPERIENCE

Remote Freelance Operations and Marketing Support

Multiple Web3, Crypto, Gaming, and Tech Clients | Remote | 2020 to Present

- Moderated Web3, crypto, and gaming communities across Discord and Telegram, supporting communities ranging from 5K to 80K members through daily engagement, spam control, member support, and issue escalation.
- Completed paid Upwork moderation and community support contracts with 5.0 client ratings, including long-term Discord and live chat moderation from May 2022 to Apr 2024.
- Configured Discord webhook integrations for Web3 gaming communities, helping route announcements, updates, and workflow messages across active channels.
- Used ChatGPT, Claude, Canva, Notion, and Google Workspace to create content drafts, organize campaign tasks, prepare community updates, and manage remote admin work.
- Maintained organized community spaces by removing spam, scam posts, off-topic content, and duplicate questions across active community channels.

Reddit Marketing Specialist

Twisted Comics (Former TPub Comics) | Remote | Dec 2025 to Present

- Executed Reddit marketing workflows for a 3-month contract, producing recurring high-performing Reddit posts every 2 weeks while following subreddit rules.
- Researched relevant subreddits, checked posting guidelines, and prepared campaign posts to improve organic reach without violating community rules.
- Tracked Reddit campaign activity, post timing, and engagement patterns to support better posting decisions across active promotion periods.

AI AUTOMATION PROJECTS

GoHighLevel Dental Appointment Funnel and CRM Automation

Smile Craft Dental, Mock Automation Project

- Built a 3-step GoHighLevel appointment funnel with landing, booking, and thank-you pages for a dental clinic mock project.
- Created 4 published automation workflows for appointment reminders, cancellation or no-show handling, status-triggered routing, and nurture emails.
- Configured a 4-stage appointment pipeline and tested 5 sample opportunities with automated emails, CRM tags, pipeline movement, and internal notifications.

Real Estate Lead Intake and Follow-Up Automation

MetroNest Realty PH, Mock Automation Project

- Built a Zapier lead intake workflow that captured property inquiries from Google Forms, logged data in Google Sheets, and triggered Gmail responses.
- Configured 2 conditional routing paths to classify leads as Hot Leads or Warm Leads based on inquiry type, budget, property type, and timeline.
- Automated Slack owner notifications, scheduled Gmail follow-ups, and Google Sheets status updates to reduce manual lead handling from 5+ steps to 1 workflow.
